Elegance is usually confused with superficiality, fashion, lack of depth. This is a serious mistake: human beings need to have elegance in their actions and in their posture because this word is synonymous with good taste, amiability, equilibrium and harmony.

Because you are women, people will force their thinking on you, their boundaries on you. They will tell you how to dress, how to behave, who you can meet and where you can go. Don't live in the shadows of people's judgement. Make your own choices in the light of your own wisdom.

My personal style falls between casual cool and meticulous slob. I'm most comfortable in jeans, but I love fashion.
