MAYRA
by Anand & Anand

Be a woman as a queen, make a lot of the men in that will make everybody fall in love
with you. Be a woman as a queen, make a lot of the men in that will make everybody fall in love
with you. Be a woman as a queen, make a lot of the men in that will make everybody fall in love
with you.

Beauty is not only what you see, it's what you feel. It's the way you feel about yourself and the way you feel about the world. It's the way you feel about the people you love and the way you feel about the people who love you.

Janani
No one can take away your beauty, because it's not on your face, it's in your heart. It's the way you feel about yourself and the way you feel about the people you love and the people who love you.
